## Our Mission

The ancient Guru-Shishya tradition has been seen gradually decreasing in the sincere development and gradual growth of Indian education system, therefore, our educational institution Saptarshi Gurukul tries to awakening the sacred relationship of Guru-Shishya. In whree Shishayas can acquire knowledge without any hesitation as per their own interests and demands and will be able to establish humans' greatness in true meaning. This is the chief priority of ours.

## Our Vision

It is our desire and topmost priority to change the govt-job-oriented mentality of students by introducing them to the changing education system and directing their interests to Commerce, Society, literature and Culture from the Primary state of education to the higher secondary state with both curricular and co-curricular education. Through this new viewpoint everybody will live a dignified life with five most important requirements of a honourable life like Income, Respect, Happiness, Security and Growth.
